

## DECENTRALIZATION IN WORKING AND GRIEVANCE REDRESSAL MECHANISM

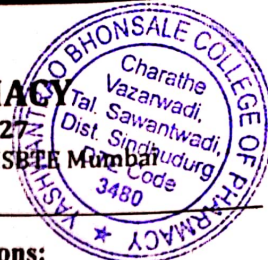

### Decentralization in Working at institute level

Various committees have been framed in our diploma Pharmacy in order to redress the problems and grievances of the students. For every committee, a senior faculty member was designated as member and convener. Every committee has defined roles and responsibilities as mentioned below of the composition of each committee. It is the responsibility of the coordinator to convene the meeting as frequently as possible among the members to discuss the issues related to the responsibilities assigned to the concerned committee. Based on the nature of the problems arose, the convener/president will take necessary remedial actions. If the remedial action requires attention of the Principal and Management, then it will be immediately brought to the notice of them for necessary action.

Principal has the academic, non-academic and administrative responsibility which is successfully accomplished with a team of Principal, Head of Departments, Registrar and Accountant along with their office staff provides necessary administrative support for smooth functioning of the institution.

Academic activities are monitored by principal along with head of department.

**List of Faculty members who have been delegated powers for taking Administrative Decisions:**

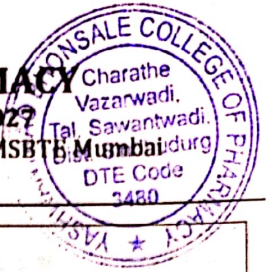

The details of committee along with the name of coordinator as well as responsibilities of each committee are given below:

#### Decentralization in working at departmental Level

The Head of Department take suitable action in response to the circular sent/forwarded by the principal. They plan and execute co-curricular and extra-curricular activities of the respective departments. Faculty members are assigned with different functional responsibility and participate in all major decisions making concerning welfare of students. Faculty members, staff and student representatives are members of various welfare, grievances and other committees. Policy guidelines of these committees are in practice.

Students' association exists in each department where student's representative takes active role in organizing various student centric program. Students are free to suggest value addition trainings. In addition, various technical, sports and cultural activities are planned and conducted by students.
